

MYOTONIC GOAT REVIEW

A PUBLICATION OF THE MYOTONIC GOAT REGISTRY

SPRING/SUMMER 2016

VOLUME 11, ISSUE 2

CLEFT PALATE

~Suzanne W. Gasparotto

Cleft palate is a congenital malformation of the inside upper roof of the mouth. The most common defect is a split in the roof of the mouth that runs lengthwise from the front gums to the back of the mouth.

When a kid is born with a cleft palate, this condition may not be noticed immediately. The producer may wonder why the dam did not feed her kid, when in fact the kid having a cleft palate does not have a good sucking reflex. Oftentimes the dam knows something is wrong with a kid and refuses to feed it when first born. A defective kid is a threat to the genetic integrity of the herd as well as to their overall physical safety.

If the kid lives, begins to nurse, and subsequently eats solid foods, the cleft palate will get wider as the kid grows. Liquid and soon solid food will begin to come out of the kid's nose, giving the appearance of its having runny nostrils continually. The producer will begin to notice that the kid is not growing at the same rate as other kids; this is because nutrients that the kid's body needs in order to grow are not reaching its digestive system. By the time the kid is three to four months old, if it lives that long, it will be substantially smaller and poorer looking than its peers.

As time passes, the cleft palate kid will develop health problems. The runny nose usually turns into pneumonia and subsequently death. Sometimes other

Originators of Tennessee Meat Goats™

congenital birth defects, often heart-related, appear along with the cleft palate. A wise producer will check the inside of every newborn's mouth for the presence of a cleft palate.

Cleft palate is a congenital birth defect that is hereditary. If the producer breeds the dam to a different buck, the problem likely will not recur. Surgical repair of a cleft palate in a goat is not only difficult but also expensive even if the producer can find a vet qualified to do it. Because cleft palate is passed genetically from parent to offspring, the producer should not breed a goat with this condition, even if the cleft palate is repaired. The most realistic option is to put the goat down when it begins to suffer serious ill health resulting from this birth defect.

*"Chevon, cabrito, goat. . .
No matter what you call it,
it's the HEALTHY red meat.™"*

FROM THE FARM...

2016 has been a busy year at the Myotonic Goat Registry! We have had over two hundred new members to date! It is exciting seeing so many new people become involved in the breed.

I am pleased to announce the MGR Youth Program has two youth members who have won the 2016 scholarship, Maxwell Lawrence and Hope Taylor. I am very proud of the wonderful young adults I see these two becoming; they should be an inspiration to all who are involved in the breed. I have had the pleasure of watching Maxwell & Hope in the MGR showing for almost a decade and have enjoyed watching them grow into fine showmen and knowledgeable breeders. I look forward to everything I know the future holds for the both of them.

I would like to thank Ellen Pittman, our MGR Youth Director, for the untold hours she has devoted to making the MGR scholarship program possible. I would also like to

welcome Kaylee Kinder of IN to the MGR Youth Committee. Our youth program is blessed to have such wonderful, dedicated ladies devoted to helping our youth have an important place in the registry.

Our 2016 MGR Judges Training was held on October 6, in Lewisburg, TN. I am pleased to announce we have two new MGR Certified Judges and three Apprentice Judges. I expect our Apprentice Judges to complete their assignments early in the 2017 show season and be ready for hire by summer. Please remember to be patient as our new judges apprentice at upcoming shows giving them a bit more practice in their flow of reasons. It is no easy task to become an MGR Judge as we require a score of 90% or above. Congratulations to Jason Brashear of KY and Lisa Edinger of TN on becoming our newest MGR Judges! Our new apprentice judges are Cindy Lynn Huggins of MO, Zona Johnson of TN and Jerry Klaimer of OH. I appreciate the dedication of these individuals as they help to move us closer to the day we can close our shows to MGR Certified Judges only.

Please remember to submit paperwork early as our office is busier than ever. We do offer a rush service for those needing paper

work quicker. The outside of your envelope must be marked "RUSH" A few tips to help speed up paper work:

- Only active breeders may process paper work so if you are not already a breeder (member) of MGR you can submit your [MGR Breeder Application and Herd Suffix Form](#) at the same time as any other paper work.
- Remember to include two wallet size pictures with each Registration Application.
- Be sure to include the Original Registration Certificate when submitting Transfer Applications.
- If paying by credit card include our PayPal form with your paperwork otherwise our staff will mark the paperwork as missing payment ,slowing process way down!

As we move into cooler months it is a good time to trim feet and check for those who need worming, thus allowing your herd to go into the winter months in the best possible shape. Staying on top of hoof trimming is the best way to avoid hoof issues associated with the amount of rain most receive in the winter. Letting hooves get out of hand this time of year, sets the stage for the nightmares of hoof rot and hoof scald the spring temperatures will bring.

~Tara

THE GOAT GOURMET

Goat Stew

Ingredients:

2 lbs. goat stew meat
 3 cups potatoes, diced
 2 cups carrots, diced
 ¾ cup onion, chopped
 2 tablespoons garlic, chopped
 1 tablespoon dried summer savory
 1 tablespoon dried thyme
 1 tablespoon dried oregano
 1 teaspoon dried rosemary
 ¼ teaspoon radish seed
 Salt and pepper to taste
 ¼ teaspoon paprika
 3 ¼ cups beef broth water

Recipe Courtesy of :

Amazing Soup Recipes.com

Visit URL listed below

<http://www.amazing-soup-recipes.com/stew-recipes>

Directions:

Preheat oven to 425 degrees F. Place meat in cast iron skillet or small Dutch oven. Place pan in oven and reduce heat immediately to 350 degrees F. Set timer for 35 minutes. When done, remove goat meat from oven. Place the meat into a stock pot and just cover it with water. Add in as many of the skillet scrapings as possible from the pan the meat cooked in. Put a lid over the stock pot and let the meat boil for an hour. Caramelize the onions and garlic in a skillet on the stove. Add to the stock pot along with the potatoes and carrots. Mix in the herbs and seasonings. Let the stew cook until vegetables are tender. Serves 4.

MGR ADVERTISING GUIDELINES

- All ads must be goat related. The acceptance and publishing of any ad will be the final decision of the owner and editors of MGR. The ad submitted must be copy ready. Please keep file size to a minimum! Preferred format for electronic submissions is .pdf or Word format.
- Ads should be submitted one month prior to Newsletter release date. The Newsletter is quarterly so release dates are in January, April, July and October. Release dates may be adjusted as needed and every effort will be made to include any ads that did not get submitted a month in advance.
- **The rates for active MGR breeders are as follows:**
 - *Business card ad: \$21 per year (4 issues), \$7 per issue; 2 1/4" x 3 3/8"
 - *1/4 page ad: \$27 per year, \$9 per issue; 3 1/2 x 4 1/2"
 - *1/2 page ad: \$48 per year, \$16 per issue; 4 1/2 x 7 1/4"
 - *Full page ad: \$90 per year, \$30 per issue; 7 1/4 x 9 1/4"
 - Classified ads: \$0.30 per word.
- **Rates for businesses or non-MGR breeders are:**
 - *Business card ad: \$48 per year (4 issues), \$16 per issue; 2 1/4" x 3 3/8"
 - *1/4 page ad: \$60 per year, \$20 per issue; 3 1/2 x 4 1/2"
 - *1/2 page ad: \$90 per year, \$30 per issue; 4 1/2 x 7 1/4"
- *Full page ad: \$180 per year, \$60 per issue; 7 1/4 x 9 1/4"
- Classified ads: \$0.60 per word.
- Classified ads must be renewed each issue.
- If you select a per issue ad, you can specify in which issue you would like the ad to appear. Actual location of ad in the Newsletter is at the Editor's discretion. Be sure to submit your ad early!
- *Sizes given are to allow for the border on the newsletter page.

Please send your ad with payment to:

E-mail: myotonicgoatregistry@yahoo.com

Website: www.myotonicgoatregistry.net

The Myotonic Goat Registry was formed in 2005 as a sole ownership registry by Gene McNutt with input from an initial Board of Advisors made up of Dr. Phil Sponenberg and Barbara Roberts. The current Board of Advisors includes Dr. Phil Sponenberg, Cindy Bene, Jason Duffy, Jan Likens and Dian Naumann. The owner and Board of Advisors will make decisions concerning the registry and its procedures. This method of governance is meant to provide Myotonic Goat breeders with a registry that will not have frequent changes, and will have the longevity and consistency needed to successfully promote the Myotonic Goat breed, while at the same time make it responsive to the needs and wishes of the breeders. In 2009, Gene retired and the registry was sold to Tara Lawrence. As the Myotonic Goat Registry grows, additional Board of Advisor members may be added in order to more broadly represent the breeders. The owner, along with the Board of Advisors, will be responsible for providing for its own replacements and/or expansions.

The Myotonic Goat Registry takes into consideration all breeders, from pet owners to commercial meat growers. Regardless of which aspect of this breed appeals to you, the Myotonic Goat Registry is the place for all breeders to register their Myotonic Goats.

The Registry will help breeders promote their goats through sales, shows, and advertising, and will educate the public about the Myotonic Goat and its usefulness in a variety of settings.
