Responsibilities of the Myotonic Goat Registry

The Myotonic Goat Registry records registrations and pedigrees for myotonic goats. The focus of this registry is on the genetic background of the goats. All myotonic goats are registered by the MGR based on the information provided in the application. The Myotonic Goat Registry maintains records based on that information.

All data submitted to the Myotonic Goat Registry becomes the property of the Myotonic Goat Registry. Each pedigree/registration certificate is based on data received from the applicant. The Myotonic Goat Registry will void any certificate that it determines is misrepresented whether by fraud or error. The Myotonic Goat Registry will assume no liability for damages arising from such entries. The Myotonic Goat Registry only vouches for the accuracy of its information to the extent that the information submitted to it is accurate.

The Myotonic Goat Registry will make efforts to properly document information that is on the certificate/pedigree. In the event that the Myotonic Goat Registry makes a mistake, it will replace the certificate/pedigree free of charge. If the applicant makes a mistake, The Myotonic Goat Registry will reissue a corrected certificate for a fee. The Myotonic Goat Registry assumes no liability for damages arising from a mistake in paperwork, whether by the applicant or by the Myotonic Goat Registry. Applicants should closely check the certificates/ pedigrees as soon as they are received and report any mistakes within thirty days.

The Myotonic Goat Registry makes no claims to the quality or value of any goat registered. It is the desire of the Myotonic Goat Registry that each applicant takes responsibility for the quality and soundness of his or her animals, and only present good sound animals to potential buyers. All transactions involving registered goats are strictly between buyer and seller, and the Registry does not play a role in these transactions other than registering goats.

The owner of the Dam at the time of breeding will be considered the BREEDER of the offspring and will be responsible for the application for registration of the offspring. If the Dam is sold during gestation, a breeding memo must accompany the transfer application. The breeding memo must be signed by both the owner of the Dam and Sire. In the case of artificial insemination, a copy of the receipt of the semen from the seller must be included with the registration application and AI memo.

An annual fee will be charged for each farm/breeder to maintain a herd suffix and herd name, as well as a place in the database. Failure to present the fee to Myotonic Goat Registry on or before January 31 of each year makes the fee past due and farms/breeders are subject to loss of their account file, past due accounts may also be subject to loss of the herd suffix and herd name associated with the account. No herd suffix or herd name will be duplicated within the Myotonic Goat Registry database.

The appropriate fee, as indicated on the Myotonic Goat Registry Schedule of Fees, must accompany all paperwork. Fees must be paid by check or money order before work will be processed. Each registration certificate will be issued with an accompanying pedigree of as many as three generations of history. For an extra fee an extended pedigree of up to six generations will be supplied if the background information is available within the Registry's database.

Schedule of Fees Effective 12-31-2013

Rush/ Priority/Overnight Mail	Actual cost of postage. Call MGR for pricing.

Saturday, May 02, 2009

While it may seem like a minor issue to some, receipt of non-sufficient fund (NSF) checks is a time consuming and costly issue. To manage this process the MGR will begin using FARS (Federal Automated Recovery System) immediately. FARS utilizes the federal and state laws allowing the electronic recovery process of NSF checks. When you provide a check as payment, you authorize the MGR either to use information from the check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. You authorize the collection of a fee through an electronic fund transfer from your account if your payment is returned unpaid. Checks must include: Drivers License #, Full Name, Street Address, Phone Numbers.
