

2026

Myotonic Goat Registry

National Show

October 3, 2026

Muhlenberg Co Ag Center

3705 State Rt 1380

Powderly, KY 42367

Show Rules & Information

1. All Bucks and Does participating in the MGR National Show must be Permanent Grand Champions. Platinum Wethers must be at the Bronze Level Status or higher. Three points must be earned under at least two different MGR Judges. Market Wethers must have 1 point.
2. Only points earned & recorded by September 15th, 2026 will count towards qualifying points for the 2026 National Show.
3. All goats showing in the MGR National show must have their registration papers accompanying them and have permanent identification recorded by MGR listed on the registration papers.
4. Proof of status shall be verified by MGR registration papers.
5. All proof of status and identification shall be verified by show officials prior to the show. Any goat found to not have correct identification or not have their registration papers on site shall not show. Goats & Original Registration Certificates must be brought to check-in for verification.
6. Scrapie tags, tattoos and microchips will be allowed as identification and exhibitor's using microchips must furnish their own reader.
7. All goats must have a health certificate not dated before September 21st, 2026 and must show the destination as Muhlenberg Co Ag Center. A copy of the health certificate must be turned in at check-in.

8. All goats entered into Nationals MUST bring a completed copy of the Medication Report to turn in at check-in.
9. National Champions & Reserve Champions will be tested at the descension of MGR for use of *any diuretic, growth stimulant, or performance enhancing drug*. Myotonic Goat Registry Medication Report must be completed and turned in at check-in.
10. Official wins will not be recorded until test results are received and confirmed by the MGR Office.
11. Failure to comply with attending veterinarian or staff during sample collection of National & Reserve Champions will be an automatic disqualification.
12. Entry fees are (\$50.00) fifty- dollars, per Buck, Doe or Wether. No refunds will be given for any reason nor will any expenses or loss associated with MGR Nationals be the responsibility of MGR or those affiliated with the event.
13. Entries and fees must be received by September 21, 2026, late entries will not be accepted.
Entries may be e-mailed to myotonicgoatregistry@yahoo.com. If emailing entries, payment must be made by PayPal to MGRAlabama@yahoo.com (friends & family only) at the same time!
Entries may be mailed to: MGR, P.O. Box 141, Adger, AL 35006. Make checks payable to MGR. Entries received without payment will not be accepted!
14. The National show will begin at 9:00 am on October 3, 2026.
15. Pens are \$10.00 each, clean-up is included. Bedding is pre-order (\$7.00 per bag) or bring your own. Pine shavings or flakes only. Hay may not be used as bedding.
16. MGR National Panel Judges are at the discretion of MGR and not publicly announced until the beginning of Nationals. Professional attitude & decorum is always expected of all exhibitors in the show area.

Excerpt from MGR Sanction Rules

Myotonic Goat Registry Official Sanctioned Rules; B, 3, E; e. **Exhibitor shall use no artificial or unnatural substances to hide defects, to add bulk to an animal or to change natural tail carriage.**

Acceptable Practices and Substances

No person shall conspire with another person or persons to intentionally violate, or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate any part of these Rules & Regulations.

i. Permitted Practices and Substances

- a. Drenches as needed, and as directed on the label, for animal health and well-being.
- b. Drugs and other substances labeled for use in goats to treat health issues in an exhibited goat. Any extra-label usage requires a prescription, or statement for use from the attending veterinarian.
- c. Grooming products that are not restricted from use in meat producing animals, including: brushes, combs, clippers, hoof trimmers, shampoos, conditioners, oils, mousse, alcohol/liniment, sprays, powder, and artificial coloring that enhances the goat's natural color.

i. Conditionally Permitted Practices and Substances

- a. Therapeutic medications given for the legitimate treatment of illness or injury are permitted if ALL of the following conditions are met:
 - i. A completed medication report on file with show management before exhibiting the animal, which must include:
 - (a) Diagnosis of illness/injury, reason for administration, and name of administering and/or prescribing veterinarian.
 - (b) Signature of veterinarian or person administering the medication. If prescribed by written instructions, a copy must be attached to the medication report.
 - (c) Identification of the medicine; the name, amount, strength and mode of administration.
 - (d) Date and time of administration.
 - (e) Identification of the animal: MGR registration number, permanent identification, age, sex.
 - ii. The animal must be withdrawn and kept out of competition for not less than 24 hours after the medication is administered.
 - iii. The medication report must be filed with show management within one hour of administration of the medication or one hour after show management is available, if administration occurs at a time other than during competition hours.
 - iv. The medication report must be signed by show management and the time of receipt recorded on the report.

Prohibited Practices and Substances

- a. Injection or external or internal administration via any orifice of any substance (including drugs, chemicals, and any other forms of products) prohibited from use in meat producing animals by the Food and Drug Administration (FDA), the U.S. Department of Agriculture (USDA), and/or any Federal, State or Local Law.
- b. Extra-label use of any drug or substance approved for use on meat producing animals, but

not approved for use in goats (even though commonly used in goats) while on the show premises.

c. Injection or external or internal administration via any orifice of any allowed substance in any way that is inconsistent with the dosage and the route prescribed by the manufacturer or prescribing veterinarian.

d. Administration of any quantity of any diuretic, growth stimulant, or performance enhancing drug.

e. Filling and/or tubing of an animal.

f. Presenting any animal whose natural conformation and structure have been surgically altered in any way, exception for:

i. Removal of horns; and/or

ii. Removal of testicles in the case of wethers.

g. Using any inhumane or unethical treatments, including striking animals, using electrical contrivance, or other similar methods.

h. Artificial coloring that alters the natural color of a goat.

i. Attaching any objects, including hair or hair substitutes, cloth, or fiber to the animal for the purpose of deception.

j. Injection or external or internal administration via any orifice of any substance, whether gas, solid, or liquid, not conducive to continued animal health or marketability.

k. Tissue or fluid manipulation, removal, surgical attachment or otherwise to change, conceal, enhance, or transform the true conformation or configuration of the animal.

l. Administering any substance that artificially induces lactation.

m. Any substance, regardless of how harmless or innocuous it might be, which might interfere with the detection or quantization of any substance prohibited by MGR.
